

The Citra Clean Collection

The natural alternative

3 | three

Industrial Strength Citrus Cleaners

Citra Clean Degreaser

An orange solvent cleaner for the removal of all types of tar, bitumen and adhesive. Ideal for degrading heavy deposits of mastic etc, where petroleum solvents are unsuitable. May also be used to fragrance cleaning solutions, refuse containers and contaminated standing areas.

Product code: CCDG5, CCDG25

Citra Clean EX

Industrial strength cleaning power. EX contains more orange oil than Citra Clean Concentrate for use where oily soiling and tar is a problem. EX is ideal in marine or industrial applications as a degreaser on plant and machinery. EX also removes chewing gum, oil and tar from concrete and paved areas.

Product code: CCEX5, CCEX-25

Citra Clean HD

Heavy duty cleaning without hot water. This powerful blend of natural citrus solvents dislodges carbonaceous soiling, aged oil and grease so it may be rinsed easily from plant and machinery where hot water or power may not be available. The unique formulation also facilitates the recycling of the cleaning solution by separating (splitting) the soiling from the cleaning solution, making HD very economical to use. Also removes tar, some graffiti and chewing gum sun-baked onto paved areas.

Product code: CCHD5, CCHD25

Citra Clean HP

High-powered cleaning with a higher pH, for heavy-duty industrial applications including cleaning concrete floors. Removes tar, oil, grease and bitumen easily.

Product code: CCHP5, CCHP25
