

Stapro Health Care

Sanitaire: Emergency Clean-up Powder

This absorbent powder is the market leader, with its subtle floral fragrance and germicidal action it has been specially formulated for use in all emergency situations where body spills occur. Sanitaire's fast acting, absorbent power helps prevent airborne odours while preventing soiling being absorbed into upholstery and floor-coverings.

Economical to use Sanitaire is an effective emergency treatment for all accidental spillage's including; vomit, urine, blood and faeces as well as for cleaning-up food and drink spillages. Sanitaire absorbs up to 400 times its own weight and is effective against gram positive and gram negative bacteria.

Sanitaire is ideal for use in hospitals, care homes, clinics, institutions, doctors and veterinary surgeries, police stations, schools, hotels, restaurants, as well as in ambulances, taxis, coaches, ships and aircraft. Sanitaire offers the best solution to the most unpleasant task - **safely**.

Product code: SAN, SAN240, SAN15

Sanitaire Clean-Up Spill Kit

The simple solution to removal of body-spillages.

By combining the absorption power of Sanitaire with the sanitising and odour neutralising efficacy of Sta-Kill in a handy pack containing latex gloves, a scoop and a tough disposal bag, accidental body-spills can be cleaned-away safely and efficiently.

Product code: SANKIT

Sta-kill: Concentrated Deodoriser

This powerful deodoriser contains active bactericides and urine neutralising agents to help prevent stains. Sta-kill is the professional solution to the eradication of malodours from urine, vomit, mildew, smoke, cooking and pet soiling. With a neutral pH, Sta-kill may be used confidently on carpets and upholstery fabrics, as well as hard surfaces. Sta-kill is also an excellent pre-spray on soiled clothing prior to laundering. Used in conjunction with Sanitaire, Sta-kill sanitises and deodorises upholstery and carpets contaminated with body spills between cleaning cycles.

Product code: SK750T, SK5

Phoraid: An approved disinfectant

An iodine based, biodegradable, free rinsing, non fuming, non corrosive disinfectant. Phoraid is safe and effective to use for general disinfection as well as on the skin. Because it is coloured Phoraid "traces" the skin, and is ideal for preventing contamination prior to donning protective gloves, masks etc. Phoraid launders easily and may be used confidently on coloured fabrics and because it is non-fuming, in enclosed spaces. Holds DEFRA (General Order) and many International approvals with test certifications.

Application areas all public sectors, and institutions, including hospitals, schools, prisons etc. Also for use in animal sanctuaries and veterinary surgeries.

Product code: XPHOR5, XPHOR20
